PEARED LYNCHING.

At a late hour last night the police went to the readence of Acting Mayor Carter, and, awakening him, informed him that they had reason to suspect that a mob was gathering for the purpose of doing violence to Hunter Duval, the inulatto youth charged with the attempted assault on the lady at the University of Virginia late Saturday night. Mr. Carter, in company with other officers, procured horses and started out on a hunt. THE DEFENSE.

Witnesses for the defense testified that at the time of the attempted assault Duvali was in this city. Two white citizens who went up on the car testified that they knew Duvali and that he was not the youth who went up on the car and who made the attack. One of these witnesses knew Duvall well, be having been employed in the family of the witness mother for several years. She was positive that it was not Duvall. Another reputable citizen testified that he saw the street car in question with the ladies and the neuro on board pass his house on Main street, and that at that time Duvall was engaged in conversation with bis cook, and remained conversation with bis cook, and remained there for some time until the car had passed out of sight. He was also seen there at the same time by several other withesses. From this point several witnesses say they went with the prisoner to his own home.

After the examination was over Duvall was taken to the Chesapeake and Ohio depot by two officers where the F. F. V. train was boarded; and by this time the prisoner is safe in jail in the city of Staunton, it is not believed that any violence would have been inflicted on the prisoner, but the authorities thought it best to take him out of the city. Every one except the witnesses were denied admission to the room in which the examination was held. The reporters even were not allowed to hear the testimony, much to their surprise and disappointment. THE PRISONER TAKEN TO STAUNTON.

The special further quotes a prominent third party leader of Kansas as saying: "We are going to burst the solid South. The negroes are going with us to the next National meeting of the Alliance and will declare for a free vote and a fair count in the South, and President Folk will first recommend this in his message." has promised the third party leaders

in Kansas that he will break the solid South, and they demand that he proceed to do it if the ex-liepublicans and ex-Democrats in Kansas are to be held in the new party.

Electropoise.

RECEIONON, V.A. Angust D. 1891—I begin the use of the ELECTROPOISE, about fifteen months ago, being at that time a pairful victim of nervous prostration. After months of suffering under the best medical adviced my condition was very feedle, the action of my heart very bad, and all other organs deranged. I was austained from day to day by the use of strong tonics and unlimited stimulants. In desperation I applied the PUISE one might with little of faith or hope, and began to improve at once, and have never since that time touched a drop of stimulants or a grain of medicine. In three months I gained thirty-eight pounds and weigh more now than I ever did and my health is restored. My wife has the greatest confidence in the instrument, and it has cured her of neuralgia, from which she suffered much. She and our five children have used absolutely no cher remedy since the day I began to use it. We apply it on the first complaint of any kind, so far with uniform success. Yours truly.
